

# ENVIRONMENTAL POLICY STATEMENT

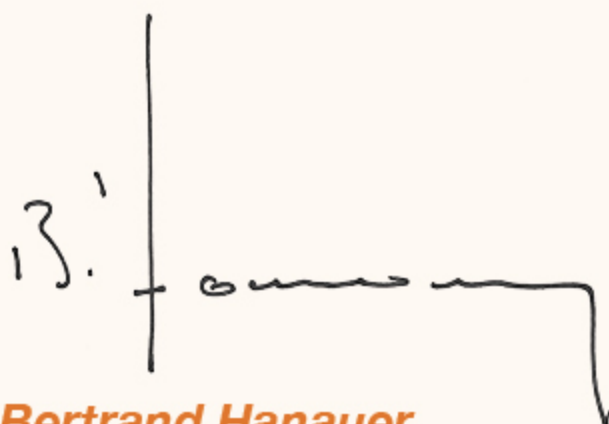

*Transinvest Construction Ltd is committed to managing environmental matters as an integral part of its business through the establishment and implementation of an Environmental Management System.*

To achieve world-class environment performance in a sustainable manner, Transinvest Construction Ltd will:

- ❖ Ensure compliance with national environmental regulations focusing on efficient utilization of resources, energy and fuel, minimize waste and air emissions and reduce our impact on biodiversity.
- ❖ Set objectives and, where possible, quantitative targets to determine continual improvement in environment performance and the prevention of pollution.
- ❖ Include environmental considerations in our annual business plan through the development and regular review of environmental objectives.
- ❖ Educate our employees on identification of adverse environmental impacts and issues to prevent pollution.
- ❖ Work with our sub-contractors to encourage them to strive so as to meet the same environmental standards as ours.

This policy statement is applicable to all Transinvest Construction Ltd employees, clients, consultants, subcontractors and other third parties employed or engaged by or on behalf of Transinvest Construction Ltd.

This policy shall be communicated to all employees and reviewed on a regular basis.
